<b>Description of Auditor Experience and Qualifications:</b> My thirty-two years experience in the tree care and horticultural industries uniquely qualifies me as a TCIA Approved Auditor. I completed a degree in Forestry at Paul Smith's College. Following that, I learned the art and science of the tree care industry and importance of professionalism with The Davey Tree Expert Co. I was

trained in positions from climber to District Manager. In the following years I helped pioneer the introduction and implementation of Biostimulants in the Arboriculture and Horticultural industries and had the honor of speaking on that subject at the 1993 National Arborist Association (now the TCIA) conference in Cleveland.

My position as Senior Vice President for Plant Health Care Inc. permitted me to research Mycorrhizal Fungi with the Royal Botanic Gardens in Kew, England, lecture with the U.S.G.A. (United States Golf Association) in Ireland, and consult for the Bellagio Hotel and Casino during construction. I have had the pleasure to work closely with dozens of the finest tree care companies throughout the US, developing programs to incorporate this new technology. I currently serve on the Horticulture Committee for the new Botanical Garden of Western Pennsylvania. I am also certified by the American Red Cross in First Aid and Safety, as well as Adult, Infant and Child CPR and AED.
