

Until We're All Safe...

www.tcia.org

In the fall of 2006, TCIA launched the *Until We're All Safe* movement with the intent of promoting safety awareness in the tree care industry. Despite industry-wide efforts toward improving safety and decreasing the number of accidents that plague our field, tree work continues to be one of the most dangerous professions in the U.S.

Until We're All Safe demonstrates our shared commitment to saving lives in tree care by providing visual reminders to make working safely priority #1. The campaign features green wristbands, helmet decals and brochures like this one to spread the word about safety to both co-workers and the public.

Since the movement's inception, we've distributed thousands of wristbands and decals imprinted with the words *Until We're All Safe* in both English and Spanish. At shows, conferences and job-sites nationwide, industry professionals are joining this movement and showing that the status quo is no longer acceptable.

If you haven't already, please show your commitment to safety in tree care by ordering decals and wristbands for yourself and your team. It's time for our industry to take action to save lives – and we won't stop *Until We're All Safe*.

**Please visit www.tcia.org
for more information.**

We invite you to be part of this movement.
